

10/3/06

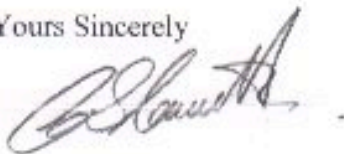

To whom it may concern:

On Monday 6th March 2006 the Surf Lifesavers had a Ferrari on display at the Brisbane Motor Show. Unfortunately an individual had written on the roof of the car in pen. As this car was on display in the convention centre we were unable to clean it in the conventional way and therefore called upon Nowet Waterless Car Clean.

We were amazed at the results. The Ferrari was cleaned with no mess and there was no aroma or any evidence left that would indicate that the damage had occurred in the first place. Their representative presented himself in a professional manner and completed the job with a minimum of fuss or disruption.

We would have no hesitation in recommending NOWET Waterless car clean to any car owner new or used as we found this to be an excellent product.

Yours Sincerely

Chris Carmalt
Surf Lifesaving Foundation.
